

ETE x Bullhorn One-Pager

Reference architecture and commercial overview

Problem

Bullhorn captures rich recruiter and client activity, but teams struggle to translate that data into actionable insights.

Architecture

Value

- * Increase recruiter productivity with AI-ranked desks and automated outreach cues.
- * Protect client relationships with early risk detection based on engagement gaps.
- * Improve revenue predictability through talent supply forecasting and conversion likelihood.

SKUs

- 1) ETE Intelligence Core – secure Bullhorn ingest, data quality, and governance.
- 2) Signal & Enrichment Pack – engagement scoring, intent, and market supply overlays.
- 3) Growth & Forecasting Pack – recommendations, playbooks, and revenue/talent forecasts.
